### WHAT HAPPENS WHEN YOU HIT YOUR OPPONENT WITH THE BALL?

#### Situation

The striker, player **X**, is entitled to hit the ball to any part of the front wall and the sidewalls near the front wall. Player **A** does not clear the triangle and player **X** hits **A** with the ball. The ball is going directly to the front wall and was not played off the back wall.

#### Decision

Player **X** is awarded the point.

#### NOTE

Player **X** should not hit the ball but ask for a let since s/he will be awarded a point because player **A** is in the triangle, a winning situation for player **X**.

### WHAT HAPPENS WHEN YOU HIT THE BALL BACK AT YOURSELF?

#### Situation

A player hits the ball back to himself off a straight shot as opposed to a cross court return.

#### Decision

If the obstructed player, had he played the shot rather than refrained from playing it, hit his opponent with the ball traveling directly to the front wall, then a “Point” should be awarded to the obstructed player on appeal.

#### NOTE

The reason for this awarding of a point is that the opponent has NOT cleared, which he has to do. It does not matter how deep in the court this interference occurs.
