

PROTECTIVE EYEWEAR

Protect yourself from preventative eye injury on court

U.S. Squash policy is that all players and coaches must wear protective eyewear whether playing singles or doubles, hardball or softball squash during all activities involving racquets and balls that take place on a court at U.S. Squash sanctioned events. All eyewear must meet or exceed the current American Society for Testing and Materials standard (ASTM-F803). U.S. Squash encourages all players to wear ASTM-F803 approved protective eyewear any time they are on court to avoid the risk of preventative eye injury.

ASTM-F803 Approved List
